

Building company

An AI helper that stays on your computer.

Finds the quote and invoice behind a disputed payment and drafts your answer.

Watch them at https://dognugget.app/for/building-company

What it does for you

DG Invoices checks each quote and invoice for the mentions the law requires and its sum, and says what is due

DG Projects puts every date in your site plans and minutes into your calendar, with the sentence it is in

DG Legal compares two versions of a contract or a quote clause by clause, showing the changed figures first

What you would ask me on a call

Where do my files go?

Nowhere. They stay on your computer. Nothing is sent to us or to anyone else, unless you switch on web search yourself.

Can I trust what it says?

Every answer shows the page it came from, so you can check it in a second. If it cannot find the answer, it says so.

Do I need to be technical?

If you can install a program and put files in a folder, you have what it takes. You paste your licence code once, then you ask in plain words.

Will it run on our computers?

It needs Windows 10 or 11 (64-bit), 8 GB of memory and 20 GB free. It does not run on a Mac yet. The free machine check tells you in a few questions, before you pay.

Do I pay every month?

No. You pay once, and updates are free.

Can we get a refund?

Sales are final once the licence code is delivered: a downloaded program cannot be given back. So check your computer first, free. If it will not run on a computer that meets its requirements, we make it run or refund you.
