

Communication agency

An AI helper that stays on your computer.

Writes the week's posts from the brief and checks every figure.

Watch them at https://dognugget.app/for/communication-agency

What it does for you

DG Marketing reads the client's brief, plan and figures and finds what a campaign may claim, with the page number

DG Copy finds what each client has already said and approved, so a new text says it again rightly

DG Social finds what the client really did, in its own files, before a post says it

What you would ask me on a call

Where do my files go?

Nowhere. They stay on your computer. Nothing is sent to us or to anyone else, unless you switch on web search yourself.

Can I trust what it says?

Every answer shows the page it came from, so you can check it in a second. If it cannot find the answer, it says so.

Do I need to be technical?

If you can install a program and put files in a folder, you have what it takes. You paste your licence code once, then you ask in plain words.

Will it run on our computers?

It needs Windows 10 or 11 (64-bit), 8 GB of memory and 20 GB free. It does not run on a Mac yet. The free machine check tells you in a few questions, before you pay.

Do I pay every month?

No. You pay once, and updates are free.

Can we get a refund?

Sales are final once the licence code is delivered: a downloaded program cannot be given back. So check your computer first, free. If it will not run on a computer that meets its requirements, we make it run or refund you.

What if I get stuck?

Write to hello@dognugget.app. A real person answers.

What it costs

$159 once

Bought one by one: $294. Together you save $135 (46%).

No subscription. A cloud AI tool at $25 a month costs one person $300 a year.

- Check my computer, free
- Download link and licence by email, in about a minute
- Secure card payment through Stripe, with an invoice

For Windows 10 or 11 (64-bit) with 8 GB of memory. It does not run on a Mac yet. Run the free check
