

Consulting firm

An AI helper that stays on your computer.

Finds the figure in your reports and drafts the note for the next meeting.

Watch them at https://dognugget.app/for/consulting-firm

What it does for you

DG Reports reads the client's reports and studies and answers with the page number

DG Scribe reads your workshop and meeting notes and finds who agreed what

DG Projects turns every date in the mission plans into your calendar

What you would ask me on a call

Where do my files go?

Nowhere. They stay on your computer. Nothing is sent to us or to anyone else, unless you switch on web search yourself.

Can I trust what it says?

Every answer shows the page it came from, so you can check it in a second. If it cannot find the answer, it says so.

Do I need to be technical?

If you can install a program and put files in a folder, you have what it takes. You paste your licence code once, then you ask in plain words.

Will it run on our computers?

It needs Windows 10 or 11 (64-bit), 8 GB of memory and 20 GB free. It does not run on a Mac yet. The free machine check tells you in a few questions, before you pay.

Do I pay every month?

No. You pay once, and updates are free.

Can we get a refund?

Sales are final once the licence code is delivered: a downloaded program cannot be given back. So check your computer first, free. If it will not run on a computer that meets its requirements, we make it run or refund you.

What if I get stuck?

Write to hello@dognugget.app. A real person answers.

What it costs

$179 once

Bought one by one: $324. Together you save $145 (45%).

No subscription. A cloud AI tool at $25 a month costs one person $300 a year.

- Check my computer, free
- Download link and licence by email, in about a minute
- Secure card payment through Stripe, with an invoice

For Windows 10 or 11 (64-bit) with 8 GB of memory. It does not run on a Mac yet. Run the free check
