

Property agency

An AI helper that stays on your computer.

Finds lease dates and charges while the owner is on the phone.

Watch them at https://dognugget.app/for/estate-agency

What it does for you

DG Property puts every property in your leases on the map, with the distance and the way there, and lists the dates that matter

DG Legal compares two versions of a lease, the changed rent and dates first, with the law pages beside them

DG Invoices reads rent and fee statements and says what is due

What you would ask me on a call

Where do my files go?

Nowhere. They stay on your computer. Nothing is sent to us or to anyone else, unless you switch on web search yourself.

Can I trust what it says?

Every answer shows the page it came from, so you can check it in a second. If it cannot find the answer, it says so.

Do I need to be technical?

If you can install a program and put files in a folder, you have what it takes. You paste your licence code once, then you ask in plain words.

Will it run on our computers?

It needs Windows 10 or 11 (64-bit), 8 GB of memory and 20 GB free. It does not run on a Mac yet. The free machine check tells you in a few questions, before you pay.

Do I pay every month?

No. You pay once, and updates are free.

Can we get a refund?

Sales are final once the licence code is delivered: a downloaded program cannot be given back. So check your computer first, free. If it will not run on a computer that meets its requirements, we make it run or refund you.

What if I get stuck?

Write to hello@dognugget.app. A real person answers.

What it costs

$239 once

No subscription. A cloud AI tool at $25 a month costs one person $300 a year.

- Check my computer, free
- Download link and licence by email, in about a minute
- Secure card payment through Stripe, with an invoice

For Windows 10 or 11 (64-bit) with 8 GB of memory. It does not run on a Mac yet. Run the free check
