

Law firm

An AI helper that stays on your computer.

Drafts replies to clients from your contracts, quoting the clause and its page.

What it does for you

DG Legal reads your contracts and case files, answers with the clause and its page number, and compares two versions clause by clause, showing the changed figures first

DG CPA opens the firm's spreadsheets: fees billed, paid and late, and shows the cell each figure comes from

DG Invoices checks each fee note: its number, date and due date there, its sum added up to the cent

What you would ask me on a call

Where do my files go?

Nowhere. They stay on your computer. Nothing is sent to us or to anyone else, unless you switch on web search yourself.

Can I trust what it says?

Every answer shows the page it came from, so you can check it in a second. If it cannot find the answer, it says so.

Do I need to be technical?

If you can install a program and put files in a folder, you have what it takes. You paste your licence code once, then you ask in plain words.

Will it run on our computers?

It needs Windows 10 or 11 (64-bit), 8 GB of memory and 20 GB free. It does not run on a Mac yet. The free machine check tells you in a few questions, before you pay.

Do I pay every month?

No. You pay once, and updates are free.

Can we get a refund?

Sales are final once the licence code is delivered: a downloaded program cannot be given back. So check your computer first, free. If it will not run on a computer that meets its requirements, we make it run or refund you.
